Roundy, a little punctuation mark, is bored. So he decides to travel around the world!

Roundy is a little black dot. Where he lives, it's always gray and noisy. He's bored, so he sets out to see the world, that big blue ball! Or so he's been told. He's going to find out for himself!

A wonderful story for children, at once poetic and down-to-earth, gentle yet fast-paced. Readers will be swept up in our hero's dreamlike journey around the globe, which Roundy will find is not just blue, but full of colors! In this sensory extravaganza, each color is linked with an emotion and a sound, lending them distinct identities. Like *Clic Clac* and *Pompons* by Édouard Manceau, books with CDs in the same imprint from Benjamins Media, *Roundy* is a book to bring out the brightness in any kid!
