A masterful adaptation of George Orwell's classic novel.

Winston Smith works at the Ministry of Truth, where his job is to rewrite history and adapt it to fit the official version. Telescreens flash propaganda messages 24 hours a day, spying nonstop on every individual. Newspeak has stripped language of all subversive nuance, reducing it to a means of conveying information. And keeping watch over all of society is Big Brother, the very embodiment of surveillance and totalitarian oppression. *1984*: a monstrous, well-oiled machine, that devours men and all their thoughts, a machine that nothing can stop.
