This is the moving story of a child dealing with his mother's illness.

Moms get sick too. Sometimes badly sick. That's what happened to Camille: she and her son shared their story with Pascale Bougeault, who put it into words and pictures. This album is the simple and moving story of a child whose mother has cancer. He tells us in his own words all the stages they went through together: the trauma of the first hospitalization, the visits to the hospital, the meetings with the caregivers. In spite of all this, life goes on for the little boy, as he tries to handle his day-to-day as best he can.
