Genres : Science-Fiction/Fantasy

Keywords : Dystopia - Technology

Joining "Providence" is a guarantee of life without accidents, without disease, without any bad surprises. Is it a blessing, or a curse in disguise?

In the mid-21st century, Providence revolutionized medical care with a subcutaneous chip that records the member's health with one goal: zero risk. Agnès, the wife of one of its inventors, lives in this micromanaged world and that calms her anxiety. Everything changes when a Providence member dies on the operating table, and Agnès is accused of negligence. Could "zero risk" be just a marketing tool? The ensuing media nightmare will turn every aspect of Agnès's life upside-down.
