One cow, two cows, three cows: no problem. A thousand cows: such a nightmare!

A farmer leads a happy life with his three cows. One day, a man in a suit and tie suggests he produce even more of his delicious milk. Sounds like a good idea! So the farmer buys three more cows, then four, then seven more... And on and on. Soon enough, the poor farmer is overwhelmed by how many cows he now has. His three original cows end up running away. He goes after them and realizes that more isn't always better. A happy ending!
