I'm born. I cuddle, I travel, I eat, I play, I get scared...

Using a wondrous gallery of animals in nature's raw splendor of nature, Éric Battut goes through the moments in a child's life: birth, daily rituals, sensations, feelings both happy and sad, independence... All the little things that add up to growing up.

A book of inspiration that says a lot with a very few simple, well-chosen words that touch our hearts.
