The French Revolution of 1789 as told by those who preparing to start the next one.

All over the land, the common folk are rising up, the seats of power are panicking, and France is bloody and burning! After crossing a capital in full revolutionary ferment, a man enters the National Assembly. The deputies barricaded within give him a hero's welcome. Who is this man taking the floor before then and claiming he will save a Republic threatened from every corner?

In this funny, optimistic utopia, Grégory Jarry and Otto T. offer readers a new, two-voiced take on the French Revolutions: one telling the story of 1789, and another foretelling the Revolution to come.
