A tale of star-crossed, high-wire love and an impassioned defense of animal rights.

Teenaged Lylia is a member of a pro-animal rights hacker network. His mission: to expose animal abuse in major water parks. He's pretty proud of himself when he sees the results of his activities proclaimed across social networks, but then he meets Wheat, a girl willing to do anything to make the world a better place and put an end to animal suffering. Wheat will soon show him things can be taken much farther, out of the comfort zone of his routine existence. The two are soulmates, and now that they've found each other, they've sworn never to part. But their ideals are abruptly menaced by the demons haunting Wheat's life...
