A handy illustrated guidebook to help all nature lovers and beginners discover the environment.

With over 120,000 known species to date, butterflies are an important link in the chain of biodiversity and a true pleasure to behold.

We see them every spring and summer, but do we really know them? Description, habitat, behaviour, useful information: thanks to these 70 factsheets, butterflies will no longer hide any secrets from you!

Each sheet is illustrated with a very detailed drawing of a butterfly species to help recognise it quickly. Smaller than a smartphone, this book will fit in your pocket and can easily be taken along on walks.
