Publisher : Fleurus

Category : Children's Books

Genres : Non-Fiction Children's Books

Keywords : Biodiversity - City - Public space - Armed conflict

---

Green cities are a new model inviting us to rethink our lifestyles by integrating nature into urban spaces.

It all starts with better city planning and building more environmentally-friendly structures. It's also about changing the way we eat, get around, consume, have fun, etc. We all have an effect on the world around us. Healthier, cleaner, more welcoming cities that include nature and make a good life possible: this is a future devoutly to be wished.
