

Where Have All the Birds Gone?

Authors: Séraphine Menu (Text) - Fleur Oury (Illustrations)

Publisher : Albin Michel Jeunesse

Category : Children's Books

Genres : Non-Fiction Children's Books

Keywords : Environment - Endangered species - Preservation - Shoes

Sensitively yet methodically, this instructive book lays out the various causes of a major ecological disaster as well as tips on how to help.

Over the last thirty years, a quarter of the world's avian population has disappeared. All over the world, scientists are sounding the alarm: population numbers are plummeting, and some species are close to extinction. This book inventories the situation, traces the complex relationship between humans and birds (equal parts fascination and exploitation), explains the causes of this disaster, and provides hope by offering concrete ways to take action and protect nature. Together, we can save the birds!
