"A fun, sweet picture book to read aloud to any animal lover, written by a well-known scientist and champion of the environment."

A weird cow, a nosy monkey... not to mention, of course, the elephant in the room!

When a small monkey comes upon a cow in a forest, he finds her... a little odd-looking. Her ears, for a start, are *really* big, almost like two huge umbrellas. That's enough to set the monkey wondering: is she really a cow?
