What if the history of science as we know it is all wrong? Einstein shouldn't be the only name synonymous with science!

Set off on a journey of discovery through science history and meet 48 exciting, original, endearing men and women who, due at times to their megalomaniacal or procrastinating tendencies, but more often to sexism or racism, were unfairly excluded from history. ont été injustement évincés. With her spirited pen, Camille Van Belle resurrects these forgotten figures and their discoveries, opening new horizons for readers and feeding their curiosity about the universe, from its galaxies to its atoms.
