A feminist activist spins a tale of three teens with very contemporary problems who wind up inheriting ancestral powers.

Imagine being able to defend yourself from those who harass you. Imagine being able to take revenge upon them without so much as lifting your little finger. Tempting, isn't it? That's what Bleuenn, Flora, and Lizig thought... At least until it went too far. When they found an ancient book in the forest of Brocéliande, these three girls with nothing in common never thought the spells inside would really work. And now their lives have been turned upside down, and they've become... Enchantresses!
