A fable about corporate taboos.

No one knows Harry's secret. Everyone sees him as a brilliant, tyrannical CEO. None of his employees suspect he's also successful thriller writer Marguerite Abel. Harry has an infallible method for coming up with plots and characters. He plumbs the dark emotions stirred up by corporate life: lies, envy, betrayal, manipulation... But one day, his system hits a snag: Harry gets writer's block. That's when he meets Gloria, an employee who got pregnant a few months ago after a difficult time with assisted reproductive technology. What if this new muse could rekindle his flame?
