The first comic to explore the subject of permaculture: part memoir, part practical guide.

Gaëtan, a depressed corporate drone, decides to quit and to take a year off with his partner Izia to learn about permaculture, an ethical approach to living that aims to build sustainable human habitats inspired by nature. An affectionate look at the young couple's long but always exciting journey will make readers wonder if they themselves can "live the permaculture life." Is permaculture the key to a more fulfilling, harmonious, and equitable existence?
