Mathieu Babelt masterminds an epic saga, entrusting the artwork to eight artists while his own links the chapters he has scripted.

Sheridan and Johnson, two members of the Midnight Order, are on a global mission to track down witches who have become too powerful. Each time one is captured, the women's hands are cut off in order to sever access to the source of their magic. As Sheridan begins to question whether her work for the Order is truly justified, Johnson finds herself facing a painful predicament: the next powerful witch they must track down is her own... sister!
