

Animals and Us

Incredible Metamorphoses

Author: Sophie Blitman

Publisher : Nathan

Category : Children's Books

Genres : Non-Fiction Children's Books - Picture Books

Keywords : Metamorphosis

One animal can hide another!

Animals transform themselves by changing shape, color, sex, size, and so on. This is essential in order to grow, protect themselves, attract a mate, or attack. These changes are linked to the evolution of species, but also to climate change to ensure their survival. Discover over 70 spectacular transformations! From prehistoric animals to insects, fish, birds, and mammals.
