10 keys to help support your child and give them the tools to protect themselves, defend themselves, and respond in appropriate ways.

Today, the issue of bullying is a topic in every home, on every child's lips. Of course, harassment and hazing have always been around; a small group of children scapegoating another has always been a staple of the schoolyard. But today, this phenomenon has gained momentum as harassment is more and more invisible: verbal or sometimes digital.

This book contains:

- insights into the new forms of bullying, its manifestations at school and at home;
  - a multitude of effective and proven tips to complement this book's 10 keys and support your child, giving them the tools to protect themselves, defend themselves, and respond in appropriate ways.
