Beautiful coloring books, inspired by the styles of famous artists, for all budding young artists!

These coloring books are designed to look like an artist's portfolio case. Each features 20 illustrations inspired by the works of a famous painter that young artists can color in. A short biographical presentation of the artist and their most famous works is included at the beginning of each book. The images are already partially coloured, and a range of colors is suggested for each one. At the end of the book, all the illustrations are presented in color and can be used as references. Pages are perforated to be detachable, so children can gift their works of art or frame them and create their own museum at home!
