An intensely relevant, mischievous, and philosophical album that challenges the mind!

This story begins like a magical tale at the edge of a distant realm, where a slightly... distracted little fairy lives. Alas, feeling forgotten by all, she decides to seize the moon, Saturn, the sun... and even Venus! What better way to spice up her life and have some fun?!

Abracadabra! With a few swishes of her magic wand, humans find themselves in quite the mess: how can they live without dreams, science, wisdom, and love...?
