What a hullabaloo at the Élysée Palace! But... what if the First Lady were the one with all the power?

President Thierry Langlois is having a tough time of it. The next election is a year out, and his poll numbers are in freefall. His ex-wife is writing a tell-all about it, and his Minister of the Interior won't stop stealing his thunder. But his advisors have a plan: find him a "First Lady" who can rehabilitate his image. Still, they never imagined the President would meet Victoria Coraly: feminist activist and muse of indie filmmaking! She's not about to let herself be swept away by a man who stands for the opposite of the values she holds dear. Deep in the halls of power, an unexpected love affair blossoms, throwing an already shaky administration into pure chaos!
