The hopes and wounds of a child named Delon.

Born to a giant of the silver screen and an actress besotted with freedom, Anthony Delon lifts the veil on his celebrated family, revealing who they were behind closed doors, away from microphones. He gives a shattering account of his childhood, his youth, his mother's illness, and how he cared for her till her dying day. What he seeks is universal. How can we transcend our fears, our wounds and disappointments? How do we avoid repeating family traumas, where love is the first victim of a curse passed down from one generation to the next?
