Over and under... follow a bold little ant on its journey through a double-sided accordion book, exploring the hidden life of forests and gardens.

An ant is scurrying around the garden. It picks up a grain of sugar, a dandelion seed, a twig, a larva, and a feather... "It might be useful," it thinks. Uh oh, a sparrow! The ant quickly disappears underground, taking the reader to the other side of the book. Discover the world's different layers as the book unfolds! A clever double-sided accordion book – nearly 2 meters long – full of surprises, discoveries, and the joy of working together. From the creators of *Under the Ocean* and *In the Forest*.
