A dive into the plant world.

See & Know is a non-fiction book that introduces older children to botany. The concept is simple yet ingenious: first, you observe the image (the "seeing"), then you unfold two large flaps to access the "knowing." The book is comprised of 7 beautifully illustrated and animated chapters (flowers, fruits, cones, seeds, seedlings and buds, leaves, and trees). Fanny Pageaud's delicate artwork immerses readers in the beauty of the plant world.

A real gem – rich both visually and scientifically.
