

Guided visit in the world of mathematics

Authors: Denis Van Waerebeke (Text) - Damien Pelletier (Text)

Publisher : Hoëbeke

Category : Science, Technology, Medicine

Genres : Mathematics

Keywords : Mathematics - Popularisation

This beautiful book explores the concepts of mathematics in a fun way and reveals their fascinating stories. It is an pedagogical tool with an elegant premium design: complex mathematic concepts made accessible, with stunning illustrations.

Mathematics is not only about multiplication tables and equations, it is also rich in characters, legends and parables! From irrational numbers and chaos theory to the prisoner's dilemma and the concept of infinity, this book brings the most intriguing mathematical concepts to life in a pedagogical way. Each chapter explains a mathematical idea that plays a role in our everyday lives or in the workings of the universe.
