## Biologization

Social Applications for the Biological Argument in Health

Authors: Laurine Thizy (Edited by) - Justine Vincent (Edited by) - Sinem Gunes (Edited by) - Irem Nihan Balci (Edited by)

Publisher : ENS Éditions

Category :

Genres : Sociology - Ethnology/Anthropology

Keywords : Biology - Health - Body

Neuroscience and genetics have been booming sectors for the last three decades. This work looks into the phenomena of "biologization."

Can biology alone heal our ills? Narrowing this inquiry to the domain of healthcare means understanding the degree to which various actors in this field (individuals, public institutions, professionals) resort to the "biological argument" to defend their practices et and representations. When, how, with what consequences, and to what end are biological causalities prioritized over social ones?
